BB&T Insurance Services is proud to support the member organizations of NCTA and be a preferred vendor of business insurance products. With the expertise and specialized resources available to meet the dynamic needs of the technology industry, you will receive a customized insurance program designed for the particular needs of your business. A broad array of products and services include:

- **Employee Benefits** – Benefits packages designed to allow you to attract and retain quality employees while controlling the rising cost of healthcare. We will partner with your organization to help you assess your current program and develop a long term benefits strategy that best reflects your organization's financial goals and objectives. We support your HR staff through proactive planning to help mitigate industry trends and help communicate your benefits to your employees through state-of-the-art technology.
- **Property and Liability** – Coverage to protect an organization against damage to your building, vehicles, inventory and equipment, as well as protection against legal liability for damage to an external party's property or person.
- **Workers Compensation** – Coverage for employees who are injured on the job, regardless of fault. Our plans provide both coverage and assistance with assessments to reduce or eliminate potential claims.

You should expect, and receive, the best in convenience, service and knowledge regarding your business insurance. Choose BB&T Insurance Services for your business insurance needs.
